## New AIC-1200 Firmware Release V1.0.3

Acre is delighted to release a new firmware version for the AIC-1200 intrusion control panel.

**Important note:**

In order to enable the full potential of the new firmware version, please ensure to complete entire upgrade process, including the controller firmware upgrade, followed by the peripheral firmware upgrade.

**New in version:**

- Enhancement for Two Wireless Portfolio ( stability, performance)
- Enhance PIRcam support
- Enhancements for embedded 4G modem
- bug fixes

For more information, please checkout the release notes document included in the AIC-1200 installer package available on our production information webpage.
