Product Release

Acre is introducing the next generation wireless external PIR with Anti-Masking detection.

This device seamlessly blends style and security resulting in a class leading solution for a wireless system. You will recognize the looks and the feels of our wireless outdoor PIRCAM WPIRCAM-EXT.

The WPIR-EXT is easy to mount, easy to pair and easy to configure, ensuring installation time is minimized. In addition, the device uses enhanced, low current RF technology which provides superior communications and ensures long battery life.

Key Features :

- Up to 15m detection range
- Anti-masking functionality
- PET Immunity up to 35kg
- Adjustable settings for installation in any environment
- IP65

SKU Reference :

Type	Product Code	Product Description
